

## ELRICK HANDCARVED ICON 4-STRING BASS GUITAR

Tipping it's hat to the iconic basses that fueled generations of hit records beginning in the '50s, the Elrick Icon bass brings that classic sound and feel forward with modern updates.

The Icon Gold Series bass features bolt-on neck construction with a body that features a "heel-less" design for unparalleled upper register access and an asymmetrical bolt pattern offering exceptional stability. Hand-carved from the finest hardwoods, this Elrick Icon bass features a body of swamp ash. Elrick hardshell case is included.

The neck is constructed of quarter-sawn hard maple, 24 fret (plus zero fret) birdseye maple fretboard and features a 34" scale. Also featured is a 2-way truss rod, custom Elrick bridge, Hipshot hardware, Dunlop straplocks, Bartolini pickups and passive volume and tone controls as original equipment. The Icon is also available as a 5-string and both the 4- & 5-string models can be configured with a P/J pickup combination.
